

WorkforceIQ Learning & Continuous Upskilling Policy

Section: Section 1: Annual Learning Stipend | Page 1 of 2

Every full-time employee is allotted an Annual Learning Stipend of \$1,500 (or regional equivalent) to support continuous professional development. Qualifying expenditures encompass industry certifications (e.g. AWS Certified Solutions Architect, CKA Kubernetes Administrator), academic conferences, technical masterclasses, and specialized books.

WorkforceIQ Learning & Continuous Upskilling Policy

Section: Section 2: Internal Hackathons & Upskilling Sprints | Page 2 of 2

The company sponsors quarterly AI Hackathons and allocates 10% dedicated innovation time (half day every alternate Friday) for engineers and designers to explore emergent technologies, open-source contributions, and internal tool development. Employees transitioning into newly established roles (such as AI Systems or Cloud DevOps) receive dedicated 4-week internal upskilling cohorts.
